EDUCATION

University of Washington Tacoma

Anticipated Graduation: June 2027

Bachelor of Science in Information Technology

Tacoma, Washington

Cumulative GPA: 3.6

Relative Coursework: Programming II for IT Systems, Information Networking, Hardware & Software Systems, Information Systems Analysis and Design

TECHNICAL SKILLS

- Programming: Python, Java, C#
- Frameworks & Platforms: .NET, ASP.NET, Windows Forms, Console Applications
- Web Development: HTML, CSS, Tailwind CSS v4, Basecoat UI
- Software Concepts: Client–Server Architecture, Database Programming Fundamentals, Modular Code Design
- Tools & Practices: Git, Team Collaboration, Requirements Analysis, UI/UX Evaluation

PROJECTS

C# Programming Projects

January – February 2026 Tacoma, Washington

- Developed programs using Console, Windows Forms, and ASP.NET framework to solve structured problems.
- Used problem-solving and algorithmic thinking to build functional applications
- Applied client-server and database programming concepts in project development
- Practiced designing and implementing modular, object-oriented code

Web Design & Client-Based Team Project

January – February 2026 Tacoma, Washington

- Worked in a team of 3 to develop a website for a real client based on their requirements
- Translated client requirements into functional web pages, ensuring proper layout, navigation, and basic styling
- Learned and applied basic HTML and CSS for structure and styling
- Used Tailwind CSS v4 and Basecoat UI to improve design and layout efficiency
- Incorporated AI tools like WebLLM, Ollama, and MCP to enhance functionality and user experience

Human–Computer Interaction (HCI) Project

January – February 2026 Tacoma, Washington

- Conducted interviews with 6 working professionals in a team of 3 to gather and analyze user requirements.
- Explored ways to improve engagement and user satisfaction in social media app designs
- Analyzed user feedback to propose actionable design improvements
- Documented findings and recommendations in a clear report or presentation
